NUMBER 44.

## Goods That Will Tempt the Purse String!

IS THE KIND WE ARE OFFERING THIS SPRING

Goods are judged by the good one derives from them. The goods we have been bringing before the public have proven to the people that each and every article we offer is a bargain in every sense of the word. Come and see what we offer you!

### Shoes For Men

Our shoes are not the best in the world, but just as good, and a little better than the ordinary \$3.00 and \$3.50 shoe.

### Introducing New Spring Footwear

We are now displaying our line of 1906 Spring Footwear. It is that different look and feel characteristic of good footwear that places our shoes in a class by themselves.

### Our \$2.50 Shoes

Are very effectively and attractively after the styles in \$3.00 and \$3.50 shoes. This is the finest and most attractive selection of shoes we ever displayed at any one price, and are not growing extravagant when we say they are the best to be had anywhere at \$2.50.

White Canvas Slippers for Girls

### Spring Dress Goods

Bear Silk, French Silk Mull, Albatross, Eolienne, Crepedecline, Henriette, Batiste, Mohair Suitings, Nuns Veiling, Toilduword and Silk Gingham

### Trimmings and Notions

Women who do not pretty dress trimmings should see our new spring assortment. It is the handsomest and most varied we have ever displayed.

### White Goods

Linen from 15c to \$1.00; Persian Lawns, India Linens, Long Cloth, English Nainsook.

### Carpets

### Rugs

### Matting

### Lace

### Curtains

Ladies Muslin Underwear  
Corset Covers  
Ladies Shirt Waists and Skirts  
Ladies Belts, Pocket Books  
A beautiful line of Ribbons  
Umbrellas and Parasols  
Gloves, long elbow, black, white and other colors  
Ladies Fancy Collars  
Ladies Fancy Combs  
Laces and Embroideries  
All kinds of novelties  
G. D. Corsets

### Mens Hats

Pants, Shirts and Underwear

### TIGER BRAND SHIRTS

FOR MEN

### Millinery

We are doing ourselves proud with our new Millinery. We are showing the finest, most attractive and fascinating assortment ever brought to Marion. Many creations here that are entirely original and exclusive, in addition to the bewildering assortment of the new spring chic spring shapes. All are reasonably priced.

### Our Opening Was a Success

March 28th we placed on sale a beautiful line of Hats in shapes that will be most favored this spring

The range of prices does not indicate the real value of the hats on sale. We wish to make this department the most popular in Marion and are quoting prices to accomplish this end.

Our early purchases in Eastern markets have given us the command of exclusive early styles in Marion

### All Advantage

may be secured by an early inspection of our offerings, as we are already taking extensive orders and will be glad to have yours.

Every woman in Marion knows that the growth of our business has been phenomenal. Did you ever pause and ask yourself the simple question: "Why this phenomenal growth?" If that question is in your mind permit us to answer it by saying that the secret of our success lies in the merchandise itself. All lovers of artistic articles for women to wear realize that they would be skipping the main chapter of an interesting book if, when studying the new styles, they would miss our opening.

Corner Main and Salem Streets

Mrs. A. S. Cavender

Marion Kentucky

### MINING NOTES.

Considerable Activity in the District and Preparing for a Large Summer's Output.

### MINERS WANTED—ALSO MULES

The Rosi Clark and Van View spar mines in Illinois are both working at and day and have a large output.

Twenty-five or thirty miners can get work by applying to Harry Watkins. He also wants to buy six good mules, less than 15 hands for the mines.

It is reported that Harry Watkins has a very rich manganese prospect west of near Chattanooga, Tenn. Mr. King, of Pittsburg, Pa., says this to be the largest and richest deposit of manganese ever discovered in America.

The big vein of zinc that has been discovered at the Elipse mines is of the open type, large and coarse grained. Much larger in its cube than any other zinc found in this district. Coarse grained zinc is much easier melted than finer grades, and more of it is saved.

We are sorry to say that Mr. J. M. Peters has sold out and left the district. He has moved somewhere near Knoxville, Tenn., where he is looking after and getting up mineral property. We hope he will be successful in his new field.

Mr. R. D. Dinsler is mining about 25 tons per day of lead and floor spar at the Mary Belle. He will put a night shift on this week and increase his output to fifty tons per day. The Mary Belle is one of the richest mines for lead and floor spar in this district.

The Keystone Mining company have had some trouble with their shaft of late on account of some timber breaking. Mr. Hopewell, who is general manager of the mines, has had some new timber put in, and the old broken places cribbed up, and thinks he has it in a safe condition again.

The Kentucky Floor Spar company are sinking two new shafts, one at the Vandell and one at the New Kentucky and will be ready to make a large output of No. 1 floor spar by the middle of next month. They are also working a full force at the Memphis mines, and are putting out thirty tons per day, all grinding spar.

The Marion Mineral company are sinking their shaft at the Fogue fifty feet deeper, the company has just put in a new Cameron pump which is doing good work. By the first of May Mr. Crider, the general manager, expects to have large output of spar. This company is also working a full force at the Miller mines and getting lots of carbonate of zinc.

We are more than glad to say that the Saunders Bros' new mill in Marion makes a perfect and clean separation of lead, zinc and floor spar. There is no doubt but that these two young men have been of more benefit to this district than any other persons that has ever entered it. We extend them our heartiest congratulations.

Two new shafts have been started on a tract of mineral property in Panther Hollow, that Harry Watkins sold to some Louisville parties last week, and have struck a good vein of floor spar. There is no doubt that when the roads get in condition for hauling that the output of these two shafts will be large. By this time we hope these mines will be christened and have a good name.

We clip the following from the Engineering and Mining Journal of March 24, 1906:

"The paper by Mr. F. J. Fels on Faults and Fractures, printed in this issue, is an interesting contribution to the physics of the earth's crust. Readers who are interested in the subject will naturally refer back to the allied papers in this Journal, especially the one on 'Simultaneous Faults,' by G. F. Becker, in the issue of June 22, 1905, pp. 1186. The subject is both interesting and important."

We hope to get permission to publish the items later in the Press.

### Fire Visits Gracey.

The blacksmith shop of J. W. Covington, of Gracey, was consumed Tuesday morning. The cause is not known. The fire was in the roof when discovered. It burned so rapidly that but little could be saved, of the contents. The loss is estimated at \$2,000 to \$2,500, with insurance of \$1,800.

### Card of Thanks.

We desire to thank our many friends for their kindness shown during the sickness and death of our dear son and brother.

H. W. McKee & Family.

### Convict Courted Over the Wire.

Mt. Vernon, Ill., March 22.—Melrose H. Barringer, an ex-convict, and Miss Dora Korn, a Jefferson City, Mo., telephone operator, were married here and left for Owensboro, Ky., where they will reside.

Barringer, who entered the Missouri penitentiary March 7, 1902, never saw Miss Korn until the afternoon of February 18 of the present year, when he walked from the penitentiary a free man, his seven year sentence for forgery having been commuted. For more than two years they had conversed over the telephone, every day. Barringer's end of the conversation originated in the office of one of the prison contracting firms, inside of the walls, where he was utilized as bookkeeper and Miss Korn, seated at a switchboard at the Jefferson City telephone exchange listened to the words of love he uttered.

She did not see the stripes that marked the man at the other end of the wire. Even though she might have pictured them to herself, when the strange acquaintance began, the image grew fainter and fainter as time went on, and she came to know him for what she judged him to be, with little thought or care for the fact of his imprisonment.

He would never consent to Miss Korn visiting him at the prison. "When we meet I will be a free man with a clean score," he told her over the wire.

### Deeds Recorded

Mary E. Bryant to John L. Harpending, 93 acres, \$2000.  
J. K. Markham to Bell Coal Mining Co., 1 acre \$12.

### First Airship Line.

The first airship line in the world, will be inaugurated from the Rock Springs to Lander, Wyoming, just as soon as spring opens. Airships will make daily round trips over the mountains between those points. The company is now being financed and other necessary arrangements being made.

Martin Shea, an inventor who resides here announces that he has invented an airship on totally different principles from all other flying machines, and says a miniature machine which he has built proves his theory correct. He expects to build a full sized machine before winter passes, and if it goes over the mountains as he expects he will be in a position to build them commercially. Shea is enthusiastic and is guarding his model. Rock Springs Cor. Chicago Inter-Ocean.

### Five Dollar Bill Worth \$2,560.

I. C. St. John, of this city, has a curiosity in his possession in a five dollar bill, which is 125 years old. He has just gained possession of it, although it was left to him by his mother, who died about twelve years ago. The bill was given her when a child by a relative.

It was issued under the act of July 2, 1770, by the state of Rhode Island, drawing 5 per cent. interest per annum, and signed by John Arnold. Figuring compound interest it is now worth \$2,560.

It is the intention of Mr. St. John to communicate with the authorities at Washington and ascertain if the State of Rhode Island will redeem the bill. Indianapolis Star.

### Big Mortgage Filed.

One of the largest mortgages ever filed in this county was placed on record this week. It is for \$5,000,000 and is from the Central Home Telephone Co. to the Columbia Finance and Trust Co., and is only another move in the big merger reported last week in which our own telephone company, the Alexander company, or more lately the Peoples Independent Telephone Co., was absorbed, or merged with many other small independent lines in many parts of the State. Consolidation seems to be the order of the day, and this company bids fair to be a formidable rival to the Cumberland in this State. What the next move will be now remains to be seen.

### George M. Sayre Christened

Rev. M. M. Benton, of Louisville, was in the city Tuesday to christen and baptize the infant of Mr. and Mrs. H. H. Sayre at their residence. Mrs. John H. Tonkin acted as god-mother and Mr. S. T. Dupuy as god-father. The services were conducted after the ritual of the Protestant Episcopal church, and were very impressive.

The young gentleman was christened George Maxwell, in honor of his paternal grandfather, George Sayre, of Philadelphia, and Senator P. S. Maxwell, who made the trip from Frankfort to be present at the christening.

### Marriage License

Wm. B. Vaughn to Ruthie Johnson.  
J. B. Harris to Mrs. Carrie L. Threlkeld.  
Shelby Brasher to Birdie Simpson

SUNDAY SCHOOL TEACHERS' TRAINING CLASS

LESSON XXV.  
Christ now retires to Galilee for a period prior to his taking his final departure from Galilee.

Sunday, April 1, Retirement to Mt. of Olives, return to temple and teaching, Jno. 8:1, 2.  
Monday, April 2, Woman taken in adultery, Jno. 8:3-11.  
Tuesday, April 3, Discourse on the Light of the World, Jno. 8:12-58.  
Wednesday, April 4, Jews attempt to stone him, his escape, Jno. 8:59.  
Thursday April 5, The man born blind, Jno. 9:1-41.  
Friday, April 6, The Great Shepherd discourse, Jno. 10:1-18.  
Saturday, April 7, The division among them, Jno. 10:19-21.

HELPS TO STUDY.  
I am the light of the world. A figure suggested by the illumination of the feast, which in turn recalled the pillar of fire in the desert. The place where Jesus was teaching was by the treasury, that is, the series of chests with trumpet-shaped openings to receive the alms. They were probably in or near the wall separating the Court of the Women from that of the Gentiles. Vers. 12-30 contain a new statement of the thought that the reason for the Jews' failure to appreciate Jesus was moral. The evidence he submitted to them would have been sufficient had they not "judged according to the flesh" and thus without spiritual sympathy. They drew their thought and their life, not from God, but from sinful sources. This blinds their religious vision.  
When the Jews say they were never in bondage, they not only express an in truth, but leave moral bondage entirely out of the question. Verse 34 describes the slavery to which Jesus made reference, the slavery to sin. Could there be a worse master?  
In the expression "I am the light of the world," Abraham recognized Christ's superiority. "Before Abraham was I am," is a claim of pre-existence.

Religious Life in the Roman Empire. Heathendom was not without religion, and Paul was right when upon the Areopagus at Athens (Acts 17:22) he declared that the Greeks, and in the widest sense the heathen, were "too God-fearing." We find plenty of gods and goddesses, numberless temples, and manifold religious services. In town and country, in field and forest, sanctuaries were to be found. The whole life of the people was permeated with religion, and men were ready to perform acts of worship daily and hourly. Before every important action of the State the gods were consulted, every significant period of life was solemnized with religious rites, and a suitable tribute was paid to the god who was concerned. Every household festival was marked by idolatrous worship; every rank in society had its own divinities.

The religion of the East was nature-worship. In contrast with the East, the Greeks in their divinities idealized nature and man. Their divinities are the moral powers of nature and national life, to which fancy gave noble personified forms. Some personification of the moral order of the world had dawned upon them. The old Roman gods were dry abstractions of evil and good order. Their gods were the powers upon which the welfare of the State was dependent. The official worship of Rome became the State religion. Thus the ancient heathenism culminated in the deification of the emperor, this was Imperialism.

It is just at the time when Jesus came that we recognize by many signs the breakdown of the Roman religion. Men were discontented with their own deities and sought after new ones. The distinguishing mark of that time was the gradual dying out of the native religions of the different countries. In the circles of the educated, faith in the gods of the old religion had almost vanished. Thus the way was made ready for the better religion of Christ.

THE TEACHERS' TRAINING

- The pupil is nearly indoctrinated.
1. Every trade and mechanical art requires a long and laborious apprenticeship to fit the operator for his profession.
  2. The same is true in the fine arts, artists, painters, sculptors are trained.
  3. All the professions demand a long training, lawyers, physicians, ministers.
  4. The church demands it.
  5. He who would teach the Bible is preparing for it.
  6. The Bible requires it. Tim. 4:11-16, 2 Tim. 2:15.

THE BIBLE. For the purpose of systematic and progressive study, books of the Bible may be divided under twelve heads: Patriarchy—Gen. 1-50; Mosaic—Ex. 1-40; Davidic—1 Sam. 1-2 Sam. 24; Kings—1 Kings 1-11; Chron. 1-36; Prophets—Isa. 1-40; Jeremiah—Jer. 1-52; Ezekiel—Ezek. 1-48; Daniel—Dan. 1-12; Esther—Est. 1-10; Ruth—Ruth 1-4; Judges—Judg. 1-21; Samuel—1 Sam. 1-31; 2 Sam. 1-20; Kings—1 Kings 1-22; 2 Kings 1-25; Chronicles—1 Chron. 1-9; 2 Chron. 1-36; Ezra—Ezra 1-10; Nehemiah—Neh. 1-13; Esther—Est. 1-10; Daniel—Dan. 1-12; Job—Job 1-42; Psalms—Psalms 1-150; Proverbs—Prov. 1-31; Ecclesiastes—Ecc. 1-12; Song of Solomon—Song 1-8; Isaiah—Isa. 1-66; Jeremiah—Jer. 1-52; Lamentations—Lam. 1-4; Ezekiel—Ezek. 1-48; Daniel—Dan. 1-12; Hosea—Hos. 1-14; Joel—Joel 1-2; Amos—Amos 1-9; Obadiah—Obad. 1-21; Jonah—Jonah 1-4; Micah—Mic. 1-6; Nahum—Nah. 1-3; Habakkuk—Hab. 1-3; Zephaniah—Zeph. 1-3; Haggai—Hag. 1-2; Zechariah—Zech. 1-14; Malachi—Mal. 1-4; Matthew—Matt. 1-28; Mark—Mark 1-16; Luke—Luke 1-24; John—John 1-41; Acts—Acts 1-28; Romans—Rom. 1-16; 1 Corinthians—1 Cor. 1-16; 2 Corinthians—2 Cor. 1-13; Galatians—Gal. 1-6; Ephesians—Eph. 1-6; Philippians—Phil. 1-4; Colossians—Col. 1-4; 1 Thessalonians—1 Thess. 1-5; 2 Thessalonians—2 Thess. 1-12; 1 Timothy—1 Tim. 1-6; 2 Timothy—2 Tim. 1-17; Titus—Tit. 1-3; Philemon—Philem. 1-25; Hebrews—Heb. 1-13; James—James 1-5; 1 Peter—1 Pet. 1-5; 2 Peter—2 Pet. 1-21; 1 John—1 John 1-10; 2 John—2 John 1-13; 3 John—3 John 1-14; Revelation—Rev. 1-22.

SEARCH QUESTIONS

1. What charge did the Jews make against the trustworthiness of Jesus?
2. What ground does Jesus defend his trustworthiness?
3. What is said of the witness of Jesus in Jno. 8:29?
4. How does Jesus defend this failure to believe in him?
5. What is the meaning of 12:36?
6. In what sense is Jesus the light of the world?
7. What is Jesus the effect of truth?
8. What of sin?
9. What Abraham can all men perform?
10. What estimate does Jesus himself in Jno. 8:53-58?

GENERAL QUESTIONS

1. What is the chief reason to-day why men do not appreciate Jesus?
2. In what respect is Jesus a deliverer?
3. What two great religions could Jesus illustrate by prominent customs at that time?
4. What was the state of religion in the heathen world?
5. What caused the break-down of the pagan religion?
6. Give three reasons why teachers should be trained.
7. Are the books in the Bible either in logical or chronological order?

A Thrilling Experience.

Hopkinsville, Ky., March 25th.—Facing a strong wind and almost blinding rain, which formed into a coating of ice as it fell Sunday night as he was passing over the roof of his running freight train, Elbert Wiley Jr., had an experience that he will not soon forget, and which came near proving fatal.

Young Wiley is a member of the crew of one of the L. & N. freight trains. He is faithful in his duties, and was merely complying with one of the rules of the road as he was carefully making his way over the roof of the train from one end to the other.

Careful as he was he was unable to maintain his footing and slipped from a car to the ground. It was a miraculous escape from a horrible death, and he sustained no serious injury. So certain were the remainder of the crew that young Wiley could not possibly escape death that when the train reached Pembroke yard was wired back to Casky to search for the body of Wiley. The fall took place near Casky, just beyond the Bradshaw road crossing. Rising from the side of the track in a dazed condition Mr. Wiley started to walk back to the city, but shortly afterward was overtaken by a man in a buggy who gave him a ride home. He is now on his run again and does not intend to give up his job.

Do Not Be Imposed Upon.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. Woods & Orme.

Stolen By Gypsies.

Ft. Worth, Tex., March 21.—Mrs. C. W. Clifton of Fallsford, W. Va., and Mrs. J. T. Kimberly of Dallas, Texas, have been reunited in Birmingham, Ala., after a separation of 31 years. The daughter was stolen from West Virginia when five years of age and carried through the south. She was finally rescued by a family in Texas, who paid the gypsies a good price for her and reared her. Only during the past month did mother and daughter learn each other's whereabouts.

INDIAN TERRITORY

Are you thinking of coming southwest? If so, you should by all means visit the Indian Territory. Remember that we are just now on the eve of statehood and there is no richer spot upon the face of the earth than this, no country that offers as many inducements to both capital and labor. If you desire to acquaint yourself with the new country write to the Western Publishing Company, Business Guide. It tells you about the wonderfully cheap lands—how governing same, and just how they can be secured. 200 pages of solid information. The book will be mailed to any address upon receipt of one dollar.

Western Publishing Company

Potomac, Indian Territory.

Wanted.

Local representatives to handle the sale of our new Unrivaled series of charts and surveys, showing every state and county, reliable historical and descriptive matter beautifully illustrated. We anticipate sale large enough to net our representatives from \$300 to \$500 in every county. Address: Rand, McNally & Co., Chicago, Ill.

Market Report.

Reported by the Louisville Live Stock Exchange, Bourbon Stock Yards.

CATTLE.

Extra good export steers	\$4 75-5 25
Light shipping steers	4 50-4 75
Choice butcher steers	4 00-4 60
Common to medium	2 75-3 25
Choice butcher heifers	3 10-3 60
Fair to good	2 50-3 00

BUTTER—Packing 12c per lb.; good country 16-18c; Elgin 30c in 60-lb. tubs, 29c in 30 lb. tubs; Elgin lb. prints 30c.  
POULTRY—Hens 12c per lb.; roosters 6c per lb.; spring chickens 19c; ducks old 9c; young 15c; turkeys 14c.  
EGGS—12-13c, case count; handled 13c.

Clears the Complexion.

Orino Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women and children as it is mild and pleasant, and does not gripe or sicken. Orino is much superior to pills, aperient waters and all ordinary cathartics as it does not irritate the stomach and bowels. Woods & Orme.

THE  
=1906=  
World's Almanac  
and Encyclopedia  
Is on sale all over the  
United States

It is a volume of nearly seven hundred pages and sells for 25c. Sent by mail 35c.

A Reference Book of unusual value almost indispensable to any man of business, or in the professions.

It contains information on more than 1000 timely topics and presents over 10,000 facts such as arise daily for answering.

Election statistics, agriculture, financial, educational, railroads, shipping, etc., etc., through all the list of topics where new figures are most valuable. 35 columns of index.

Send for this "Standard American Annual." Address THE WORLD, Pulitzer Building, New York City.

IMPORTANT CHANGE

Louisville, Henderson And St. Louis Railway Co.  
"HENDERSON ROUTE"

On and after April 1, 1906, all trains of this Company will arrive and depart from 10th Street Station, Tenth and Broadway, instead of from Seventh Street Depot (formerly Union Depot), Louisville, Ky.

L. J. IRWIN, G. P. A., Louisville, Ky.

Terrific Windstorm.

Hattiesburg, Miss., March 21.—A cyclone passed over South Mississippi last night but details are meagre and whether any one was killed or not can not be learned at the present time. The tornado was very severe, reaching a velocity of seventy-five miles an hour, tearing down fences, uprooting and destroying all the timber in its pathway. The storm swept the country for a distance of sixteen miles and with a width of a quarter of a mile or more, entirely cleaning the county of everything in front of it.

Afflicted With Rheumatism.

"I was and am yet afflicted with rheumatism," says Mr. J. C. Bayne, editor of the Herald, Addington, I. T., "but thanks to Chamberlain's Pain Balm am able once more to attend to business. It is the best of liniments." If troubled with rheumatism give Pain Balm a trial and you are certain to be more than pleased with the prompt relief which it affords. One application relieves the pain. For sale by Woods & Orme, The Leading Drug Store in Western Kentucky.

Wire Tapper Foiled.

Carmi, Ill., March 21.—A plot to rob the first National bank of Nashville, Tenn., was foiled by a timely telegraphic interception. It appears that a message, purporting to be signed by a bank here, was sent to the Nashville bank to honor drafts drawn by J. A. Willis up to \$5,000. The alleged message bore the signature of the First National bank here and investigation disclosed the fact that no such message could be found at the Western Union office at this place, and the Nashville bank was wired to arrest any person attempting to realize on the draft. It developed here tonight that the message must have been sent by wire-tappers.

Starving to Death.

Because her stomach was so weak, ended by useless drugging that she could not eat, Mrs. Mary H. Walters of St. Clair St., Columbus, O., was literally starving to death. She writes: "My stomach was so weak from useless drugs that I could not eat, and my nerves so wrecked that I could not sleep; and not before I was given up to die was I induced to try Electric Bitters, with the wonderful result that improvement began at once, and a complete cure followed." Best health tonic on earth. 50c. Guaranteed by Woods & Orme druggists.

In Colorado Wreck.

Mt. Sterling, Ky., March 21.—Mrs. John Welsh and son and Miss Eddie Knox, of this county, were in the wreck at Pueblo, Col. They were severely shaken up and lost all of their baggage. Relatives here have received a message that they are safe.

Monkey Talk.

Chicago, Ill., March 21.—"Monkey talk" is to be added to the curriculum of the University of Chicago. Cages are now in readiness for about thirty simians, which are being imported for a novel experiment to be conducted until definite results are obtained, or as long as the monkeys survive.

Although the professors are reticent about the matter, it is generally noised about the Midway, that there will be a thorough inquiry into the question of whether or not monkeys have a distinct language, and one that may be mastered by human beings.

A Favorite Remedy For Babies.

Its pleasant taste and prompt cures have made Chamberlain's Cough Remedy a favorite with the mothers of small children. It quickly cures their coughs and colds and prevents any danger of pneumonia or other serious consequences. It not only cures croup, but when given as soon as the croupy cough appears will prevent the attack. For sale by Woods & Orme, the leading drug store in Western Kentucky.

Epilepsy Fits St. Vitus Dance

Are nerve diseases, and unless checked, lead to destruction of both mind and body. The weak, shattered nerves must have something to strengthen and build them back to health. Dr. Miles' Restorative Nervine is a remarkable nerve tonic and stimulant. It strengthens the nerves, relieves the nervous strain, and influences refreshing body-building sleep and rest. Persistent use seldom fails to relieve these afflictions.

"I was taken with epileptic fits; had eleven in less than 13 hours. My father sent for our family physician, but he could do very little for me, and I grew worse every day, and at last they had three doctors with me, and I still got worse. My father heard of Dr. Miles' medicine and bought a bottle of Nervine and a box of Nerve and Liver Pills. I had taken only a few doses until I began to feel better. I took 12 bottles, and it cured me sound and well. It has been worth all the world to me. I recommend it whenever I go. You may use this as a life-long testimonial to the merits of your medicine, for I am enjoying the best of health, and feel that my life and health is due to this wonderful medicine." R. F. D. No. 2, Boston, Ga.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

THURSDAY, MARCH 29, 1906

The plan that is being evolved to deepen the waters of the Mississippi and the Illinois river to a minimum of fourteen ft. from the Gulf of Mexico, thus permitting the passage of the great freight and passenger steamships from Chicago and all points on the great lakes, to New Orleans and thence to all parts of the world, is for the United States the greatest enterprise of this age, surpassing the Chicago drainage canal project, as much as the entire United States surpasses any one city in importance and means more to the States contiguous to the Mississippi valley than the Panama canal—that greatest of all engineering feats ever conceived by the mind of man—means to the world at large. To the grain states it means a saving of billions, and as all wealth is based on the farm, it therefore will add wealth to every department of the Government. It is engineered by Chicago capital and brains, which precludes the probability, it indeed not the possibility, of a failure. The Press predicts that ere the passing of this generation the sight of the largest ocean freight transporters sliding up the Mississippi river en route from Buenos Ayers, Amsterdam, and Hong Kong to Chicago, will have become as common a sight as the Fowler passing Tolu or Ford's Ferry today.

After a somewhat stormy time of it, the special session of the Kentucky Legislature came to a close on Tuesday last after passing the Restrictor's Bill placing a tax of 14 cents on all spirits manufactured in the State or shipped in for purposes of branding. It is stated that the Governor will sign the bill. A hot fight was made on this bill on figures ranging all the way from 1 to 2 cents per gallon, and the Bill as passed is a compromise. The bill is too lengthy for publication in this week's issue of the Press.

James W. Taylor, the well-known editor, has made a little mess of it in Chicago. To the publishers of papers and editors of newspapers in Kentucky, to the Chicago packers in consideration of certain information in regard to the success of the trade, and it now comes out that the promise of this young editor blocks the Government, for the time, at least, from a further prosecution of these men, as individuals, and they are likely to go unwhipped of justice so far as individual responsibility is concerned. This revision of the Chicago court, if allowed to stand, will be a black eye for the Republican party. The people have determined that the Trusts must go, and if by reason of collusion or any similar means, the party in power fails to crush them, the people will place a party in control of the government with more nerve and a larger modicum of honesty.

The coal operators and miners have come to no agreement as yet and it appears unlikely that they will unless the miners make a complete surrender. Thus far the operators have denied every proposition of the miners.

Word comes from Northern China that the English residing there have finally taken the alarm, in fear of a general uprising and are leaving the country by the shipload. The whole vast Yang-Tsai-Kiang valley is said to be a seething cauldron of mutiny.

### Died in Texas.

Fulton, Ky., March 27. The remains of Wm. Chambers, formerly of Fulton, but late of Carrollton, Tex., were brought to this place for interment. His death occurred Monday from a pistol shot supposed to have been fired with suicidal intent. He was prominently connected here and for many years was one of Fulton's leading citizens. He is survived by a wife and five children.

### Well Worth Trying.

W. H. Brown, the popular pension attorney, of Pittsfield, Vt., says: "Next to a pension, the best thing to get is Dr. King's New Life Pills. He writes: 'They keep my family in splendid health. Quick cure for Headache, Constipation and Biliousness. 25c. Guaranteed at Woods & Orme's drug store.'

WANTED.—District Managers to post signs, advertise and distribute samples. Salary \$18.00 weekly, \$3.00 per day for expenses. State age and present employment. IDEAL SHEAR CO., 39 Randolph Street, Chicago.

### The Hermitage.

Most every school boy knows something of the Hermitage. One must have been to the South.

It was my privilege to see the place during a vacation I took to be long remembered. Looking back some of the Press readers would probably be more or less interested in the home of the great hero, I will mention a few things regarding it.

The original Hermitage is still standing. It is a small log house, some distance in the field from the present brick structure. The log house was put up in 1804. Aaron Burr was entertained there in 1805. When Jackson returned from New Orleans, a "Champion Hero," in 1815, he came again to this humble home.

In 1819 he built a brick house. La Fayette was entertained in this house in 1825 while on his famous visit to the United States. This building burned down but was rebuilt in 1835 on the same foundation and on the same site. The Hermitage farm contained 500 acres and it was sold to the State of Tennessee for \$45,000 in 1856.

In 1898 the Legislature conveyed it to the Ladies Hermitage Association through a Board of Trustees. The house, tomb and 25 acres of land to beautified and adorned for all coming years in memory of the great man. It is situated in a beautiful section of Davis county, Tennessee.

The view of the Hermitage from the front gate is very picturesque. There are four rows of tall oaks and other evergreen trees, a most attractive looking through them, a view to the house. This drive was dug out before reaching the house, leaving a lovely lawn of blue grass between, with holly trees and some deciduous trees.

The house has a very broad porch in front, both up stairs and down stairs, which is supported by six massive columns. We enter the house through a wide hallway. This was papered with pretorial wall paper colored by Jackson from Paris, France, and shipped by the way of New Orleans, up the Mississippi, Ohio and Cumberland rivers. On the left was his hatrack, on the right his umbrella stand, and a mahogany sofa, just where he liked to sit.

The parlor is to the left as you go in. There is the mahogany center table, sofas, handsomely carved, and chairs to match. A beautiful cut glass chandelier of fifty years use and many other things of interest. The old clock points to the hour in which he died. The year was 1845.

Then Jackson's bed room is as it was when he died. The bed is so big that it takes three steps to mount it. There are many nice portraits on the walls. One is of his wife, on which he gazed while dying. This room consists of bureau, wash-

stand, table, mirror, sofa, boxes, and many other things.

The office or library is a room of great interest. For three years the Hermitage was the political center of the United States and Jackson was the most influential man of the party.

This room contains his library, the several book cases and chairs are mostly made of mahogany. One chair, made from the wood of the great frigate Constitution.

On the 2nd floor there are three rooms. One known as Esch's room, a gentleman who married into the family. There is the finest chamber, most all the furniture is mahogany. Then there is the La Fayette room. The furniture of this room was on exhibition at St. Louis in 1904.

In the dining room there were many small things of interest but too numerous to mention. I will speak of a few. One was a silver clock, a sword captured at New Orleans and one presented to him by the city. The old hickory mantle, which was made in pieces for several successive years, some silverware and many pictures.

Before closing I want to mention the tomb. This was built by Jackson several years before his death. It was erected over his wife, with a vault left for himself. This vault is in the garden and by it are three lovely magnolia trees. Several other graves of the family of his adopted son, Andrew Jackson Jr., are near.

From the Hermitage we went to the Confederate Soldiers' Home, near by. Then we returned to Nashville, feeling that we had been well paid for this visit to this home of the brave in this land of the free.

Students to the Press.

E. S. Moore.

### SALEM.

Miss Flora Barnes is called to Salem.

See Miss Flora Barnes for the latest in Spring hats.

Where did you get such a pretty hat, June? Why, Mary this is only my old hat trimmed over by Miss Flora Barnes.

The style is everything in hats. Miss Flora Barnes has the latest.

Yes, I am going to Salem Friday or Saturday, because Miss Flora Barnes is showing her new hats. She has just returned from Market where she picked up the latest and best ideas in up-to-date hats.

Remember my spring opening on the 1st and Saturday. A pleasure to show my hats. Come one come all.  
Miss Flora Barnes.

Dr. Nevill has many friends in Salem who are pleased to learn he will return home soon.

### LEVIAS.

Come gentle spring.  
Beware of the April fool.  
Miss Jennie Clement of Chapel Hill, visited W. H. LaRue and wife last week.

Mrs. Laura Hardy and child are the guests of Ed. Threlk. and family.

L. A. LaRue wife and family of Sheridan, are the guests of W. C. Cuyler and family.

Married March 21st at the home of James Walker, Mr. Samuel Thompson to Miss Ethel Walker. The lucky pair were elegantly arrayed for the occasion and many of their friends witnessed the happy event and in wishing them a happy journey. Refreshments were served by the parents of the bride and all were very merry at a marriage ball.

One of the successful social events of the season occurred at the New Marion Hotel on the evening of March 23, when Mesdames J. H. Tonkin and J. L. Grayot entertained a euchre.

The first ladies prize, china sugar and creamer, was won by Miss Gray, and the second, hand painted card case, by Mrs. Terry. The first gentleman's prize, scarf pin, was won by Capt. Haase; second prize, tie clasp, by R. F. Haynes. The visitors prizes awarded were: A silver spoon with gold bowl, Mrs. Ramey, a handsome painting to Mr. Ramey.

Afterwards a most appetizing lunch consisting of sliced ham, chicken salad, pickles, coffee, brick ice cream and cake concluded a pleasant evening.

The guests were Mr. and Mrs. H. H. Sayre, Mr. and Mrs. R. F. Haynes, Mr. and Mrs. E. J. Hayward, Mr. and Mrs. Sam Eugeneheim, Mr. and Mrs. A. J. Bennett, Mr. and Mrs. Geo. Roberts, Mr. and Mrs. Ramey, of Hackensack, N. J., Judge and Mrs. J. F. Gordon, of Madisonville; Mrs. Terry, of Princeton; Mrs. Emma Hayward, Misses Lily Cook, Martha Henry, Lizzie and Ruby James, Kittie and Fannie Gray, Leatha Wilborn, and Messrs. Rob Cook, R. J. Morris, Will McElroy, Johnson Crider, Capt. Haase, W. D. Baird, J. L. Grayot and J. H. Tonkin.

Mr. and Mrs. E. J. Hayward entertained the euchre club and a few other friends at their palatial residence on Walker St. Tuesday evening. The hours were 8:30 to 11 and the time was spent most delightfully by those who were so fortunate to be present. Elegant refreshments were served by the hostess assisted by Mrs. Emma Hayward. The first course of salads, sandwiches and olives, then came strawberries and ice cream, cake and coffee. Among those present were: Mr. and Mrs. J. L. Grayot, J. F. Gordon, H. H. Sayre, J. H. Tonkin, S. Eugeneheim, E. H. James, A. J. Bennett, R. F. Haynes, J. W. Wilson, G. P. Roberts, W. M. Barnett, W. O. Tucker, Mesdames Ramey, of N. J., Clifton, Hayward, Carlin, of View, Misses Lizzie and Ruby James, Kitty and Fannie Gray, Lillie Cook, Mattie Henry, Neil Cessitt, Leatha Wilborn, Messrs. W. D. Baird, R. J. Morris, W. H. McElroy, Rob Cook, Capt. T. H. B. Haase.

The ladies first prize, a manicule set was won by Mrs. J. L. Grayot, of Smithland.

The ladies second prize, a pearl-handled gold pen, was won by Miss Ruby James.

The gents first prize, an elegant pair of silk suspenders, was won by Mr. Sam Eugeneheim.

The gent's second prize, a fountain pen, was won by W. D. Baird.

The reception was one of the most elegant of the season.

FOR SALE:—My residence just west of the city limits, with two acres of ground adjoining.  
HARRY WATKINS.

# Home Made

Have your cake, muffins, and tea biscuit home-made. They will be fresher, cleaner, more tasty and wholesome.

Royal Baking Powder helps the house wife to produce at home, quickly and economically, fine and tasty cake, the raised hot-biscuit, puddings, the frosted layer-cake, crisp cookies, crullers, crusts and muffins, with which the ready-made food found at the bake-shop or grocery does not compare.

Royal is the greatest of bake-day helps.

**"News" Dog.**  
The on- and off-again of a Kansas passenger train tell a rather good story. They were speeding along near Green Ridge, in Phillips county, the other day, when they struck a shoat head dog. They supposed they had killed him and thought nothing more of the incident, they say, until they reached Green Ridge. There the dog, which had been thrown upon the co-ach, was seen to jump down a trot away, carrying one of his legs in his mouth. — Kansas City Journal.

He added that the distinguished surgeon—"his name now a verb" has been compelled to travel incognito to avoid annoyance from the notoriety which misrepresentation of his views had won him.

There is no time to elaborate upon a portion of his remarks, but it is the position of the staff and officers in view of the negotiation between the capitalists and the workmen now in progress.

Mr. Robbins is president of the Pittsburgh coal company. It is to him that President Roosevelt addressed a communication recently urging exertion of every possible effort to prevent a strike among the coal miners. Mr. Robbins was born in Ripon, Wis., in 1855. He is president of the Monongahela River Consolidated coal company, a director in several banks and trust companies and is a

## SOME GREAT RELIGIOUS REFORMERS WITH THEIR REFORMS.

Read before the General History Class March 16th, 1906, in Marion High School by Miss Anna Dean.

There is no more important page of history than that which tells of the reformation, when men really began to think for themselves in matters of religion, and when the last thread that bound western christianity to the old regime, was severed by the dawning of a new era. Not only was the protestant movement a period of reformer but also a period of revolution that shook all Europe. In such a time of excitement there were great men who stand first as the leaders of the day for it has been wisely said that it is not the times that make the men but the men that make the times.

Foremost among all those men who helped to make the reformation what it is was, is Martin Luther.

Luther was born in Germany in 1483, and like many other boys who have become famous, he began his education when his parents were in straitened circumstances. His father was a man of strict habits and exercised the severest authority over his son, and Martin himself, tells us how severely he was punished. The fact that he was subjected to the rod fifteen times in one day will serve to give us some idea of the character of the young student.

Luther's education was amply provided for when we remember the circumstances of his parents. The lad also possessed a rich and beautiful voice and by singing from door to door he helped to provide those funds that were necessary for the higher education which he so desired.

While yet a student there came a change in the life of the man who was to change the belief of almost all of Europe. Luther, being deeply impressed by the death of a friend and by a great thunder storm, decided to change his course of study to theology and devote his life to spiritual matters. Accordingly he withdrew to a monastery and while there he found the foundations which he needed for his great work.

In 1507 he was ordained a priest and in the following year became a member in the new university in Wittenberg. While here his devout and unquestionable reverence appears in strange contrast with his awakened thoughtfulness and the moral revolution at the dawning of the papacy's declining to stir him. After a visit to Rome his career as a reformer began.

Luther, who had been sent out by his superiors to preach, began preaching his doctrine of indulgence and Luther, his superior all at once at this doctrine, declared, "God willing, I will have a hold in his dream. And when on Oct. 31 he nailed his theses on the church at Wittenberg, these on the doctrines of indulgence.

The purpose of these theses was to deny that the Pope had the power to forgive sins. One man had said enough to stand before his beliefs almost unshaken.

Calvin followed in his wake. He was the people of the middle ages, but a great part of the new doctrine spread among his followers.

Calvin followed in his wake. He was the people of the middle ages, but a great part of the new doctrine spread among his followers.

Calvin followed in his wake. He was the people of the middle ages, but a great part of the new doctrine spread among his followers.

Calvin followed in his wake. He was the people of the middle ages, but a great part of the new doctrine spread among his followers.

## For Coughs and Colds

There is a remedy over sixty years old—Ayer's Cherry Pectoral. Of course you have heard of it, probably have used it. Once in the family, it stays; the one household remedy for coughs and hard colds on the chest. Ask your doctor about it.

"I have had pneumonia three times, and Ayer's Cherry Pectoral has brought me safely through each time. I have just recovered from my last attack, aged sixty-seven. No wonder I praise it."—E. V. Higgins, Stevens Point, Wis.

ious treaties and injured his health by hard study and sedentary habits as a result of which his imagination became morbidly excited. He thought he heard in the air the Evil One mocking him and to artists who visit the ruins of Wittenberg the same is still visible when he threw his inkstand at Satan.

Luther's appearance upon the streets served to quell in a measure the excesses of some of the new sects, especially the Anabaptists.

The remainder of Luther's life was spent in writing treaties and hurrying forward the great reformation and in 1546 his life passed away at Eisleben, the town of his birth.

It has been said that Luther's character presents an imposing combination of good qualities. He was endowed with broad human sympathies, great energy, kind and affectionate simplicity and was at the same time a spiritual giant. In his teaching he was bold, vivid and powerful and he possessed the art which few men give to their literary works.

Luther's life and his reforms had laid the foundation for the Lutheran church of today. He taught that by faith and not by the intervention of the priests to the great day and his reforms served as a basis for the reformation.

In so great a time of turmoil when all Europe from the Baltic to the Mediterranean was shaken there naturally came upon the scene men who were not satisfied with the previous reforms. They desire that even greater changes be made to distinguish the Catholic from their church. Foremost among the reformers of this class were John Calvin and Zuingli in Switzerland.

Calvin was a native of France, but when religious toleration was forbidden in that country he fled to Geneva. From this town he sent forth his doctrinal theses.

In early life his attention was attracted to law, but his whole life had been one of rigorous temperance and earnest studiousness and while at Orleans pursuing the study of his chosen profession he became acquainted with the scriptures and received his first impulse to the theological studies.

It was at Geneva that Calvin did his greatest work. Protestant confession of faith having been drawn up he proceeded to establish his form of church government and in this way rendered a double service to Protestantism, he systematized its doctrines and organized its ecclesiastical discipline.

Calvin possessed intellectual greatness and rendered powerful service to Protestantism. He was stern in spirit and unyielding in will, but never selfish in his motives. His moral purpose is always clear and defined to live a life of duty, to shape circumstances to suit divine ends as he apprehends, and in whatever sphere he might be placed, to work out the glory of God.

Calvin taught predestination and irresistible grace, and in so doing laid the foundation of the most living and powerful system of the Reformation.

Zuingli was the great reformer of the Swiss people. He demanded a form of religion much purer than that of Luther, since he denied the presence of Christ in the sacrament of the Lord's Supper, abolished the use of images and taught that marriage

age is lawful to all. This reform laid the foundation of the Swiss church of today.

While these three men stand out prominently great during the reformation, there were other reformers, followers of these, that have exerted powerful influences in making the Protestant world of today.

## GENERAL NEWS.

Bedford, Ind. March 22.—A tramp giving his name as Dave Redmond, was arrested this morning on the charge of intoxication, and on being searched, a sack of gold rings was found on his person. It is believed by the police that the rings were stolen at some other point.

The union depot at Winchester, of the Chesapeake & Ohio and the L. & N. railway companies, was destroyed by fire. The loss will reach \$50,000.

Decorat. Ill. March 25.—A freak chicken has been shipped from this city to Brooklyn. It is a full grown Brahma rooster with four fully developed legs, and was raised on a farm near this city. The bird is in perfect health, and walks on the front pair of legs.

Fort Worth, Texas, March 22.—John Howard, a negro, was rescued from a mob of farmers in Grayson county, by a determined deputy sheriff, after they had built a fire to burn him to death. The negro is charged with making an attack on Mrs. F. A. Hicks, who lives in the Andros community, and the woman escaped through the assistance of a dog on the premises. The negro fled but was soon captured, and preparations for the burning were complete, when Deputy Sheriff Lee Seagars appeared and effected a rescue. The negro has been placed in jail at Sherman.

The head and arms of Myrtle Cross, seventeen years old, were torn off while working in a bakery at Washington, Ind. He was feeding a dough mixing machine when his head caught beneath the roller and he was dragged to instant death.

Half of the main roadway of the Louisville Road, leading from the lobby to the park, that will twelve feet. J. A. Shawcross and J. D. Bowden, of Louisville, and J. C. W. Nunn, of Belts, Tenn., were on the roadway at the time, but escaped uninjured.

It is stated on good authority that work on the new Madisonville & Dawson railroad will begin in a few weeks and be pushed to rapid completion. The proposed road connects Madisonville and Dawson and will run through Richland. It will pass through one of the very best coal fields there is in western Kentucky.

Johannesburg, Transvaal, March 22.—The South African compensation committee, which is examining claims for losses sustained during the Boer war has completed its labors. The committee examined \$9,000 demands, the aggregate of which forms a total approximately of \$340,000,000. The sum of \$47,500,000 has been allowed for the settlement of the claims.

The town of Willis has 187 inhabitants and 176 of them belong to the church. Four of the seven who

has stood the test 25 years. Average Annual Sales over One and a Half Million bottles. Does this record of merit appeal to you? No Cure, No Pay. 50c. Enclosed with every bottle is a Ten Cent package of Grove's Black Root Liver Pills.

do not belong are town loafers and the other three are infants, who will be taken in as soon as the weather warms up and they can be baptised. —Kansas City Journal.

Walter Nason, living in Newport, Me., has the mysterious ability of being able to tell the accurate time of day by simply looking in the palm of his hand as another would look at his watch. No one has been able to learn his method, and in fact he himself cannot explain the source of his power. Many of the people of the village who doubted his power and who looked upon it as a fairy story, have by their own observation and experiments become convinced of its truth.

Mrs. Mary Head, aged 84, while alone in her room at her home in Pleasant Valley, near Owensboro, fell in the fire during an attack of vertigo. She remained conscious but was unable to make the family hear her cries. Her clothes were consumed as she lay helpless on the floor and it was the order of burning flesh that finally brought help. She lived eight hours and was able to tell about the accident. She was one of the most prominent women of Daviess county and leaves several children, among them W. G. Head, a tobaccoist of Madisonville.

### The Wanderer's Return

By B. M. J.

It was their last night at the old farm. Tomorrow they must move out of the house that had been their home since their wedding day, and let strangers take possession of the old rooms all filled with haunting memories of a happy past. No wonder they were sad, these two old people who sat with bowed heads and clasped hands by a hearth soon to show them no more.

They were silent, both thinking of the same thing, their adopted son, the wayward boy, Allen, whom they had taken when a child to raise as their own son. He had been the joy of their hearts and both thought Allen would stay on the old farm when he grew up and cultivate the land that they loved.

But Allen Gordon thought differently. He was ambitious, he longed for a wider field where he could develop his mind and broaden his ideas. He had an artistic temperament. A beautiful sunset, a picturesque landscape often brought tears to the boy's eyes and a longing in his heart which he could not interpret.

He stayed with them until he was twenty, then one day the mail wagon stopped before the farmhouse door while a slender delicate looking youth climbed upon the seat trying vainly to force back the tears that would come as he waved farewell to the man and woman standing together under the old cedar tree.

And so Allen Gordon went to the city, teeming with whirlpools of temptations to seek, he scarcely knew what. And the years rolled by one by one until five had linked themselves with the endless chain of those forever departed. Allen wrote often to the old folks until suddenly his letters ceased and they could hear nothing of their boy.

At last their anxiety grew unbearable and Mr. Gordon to ease his own anxiety and satisfy his wife went to the distant city to see what had happened to keep Allen from writing. There a terrible revelation awaited the old man. Allen had been working in a bank until one morning he left the city taking a large sum of money with him. And that was the last they heard of the boy they had taken to raise.

Some years before Mr. Gordon had mortgaged the farm, a pressing need of money forcing him to do so. The mortgage had been foreclosed, the house was sold and the old people sit in silent grief passing their last night at the old home.

How quiet the old rooms seem. It

is as if they knew the change that is to come. The great clock in the hall ticks in a muffled tone and the soft night wind sighs through the closed shutters, a requiem for hopes departed, hopes they had had for Allen, their wayward boy.

Hark! What is that? The brooding silence is broken, a step sounds on the walk, a quick elastic step that strikes a vibrating string in their hearts as they listen. The door is flung open and a man in black pauses for a moment then comes forward.

"Mother, father, it is I, Allen, come back!"

"Oh, Allen, my boy!" All of the mother's love she had felt for the boy rushed over her as she clasped the wanderer to her. All the grief he had caused her is forgotten.

Not so the old farmer. He rose, his grey head lifted, his manner stern.

"Explain to us first sir your utter disregard for our teachings, your terrible betrayal of trust. Why are you a fugitive from justice?"

And then Allen straightened up, his slender form was drawn to its full height, he threw the damp, dark locks back from his broad white brow.

"I am no longer a fugitive from justice. I am no longer a betrayer of trust. I have been exonerated. The real criminal has confessed his crime."

Standing there where the light shone on his classic features he told of his struggles and his success, a success he had come home to share with them since his innocence had been proven.

He had seen the real thief, the cashier of the bank, take the money and knew everything was arranged to prove him guilty, and powerless to act otherwise he fled the punishment of a crime he had not committed.

It was then while in a distant city, and lonely, he sat down and drew from memory some scenes around his childhood home. That was his awakening, he realized that he was an artist and had found his real self at last. In a short time the city was wild over the artist who made such beautiful, weird pictures.

"And now, father, the best is to be told," Allen said softly, "I heard in town that our old home had been sold and to whom, I knew the man who bought it and hurried to him. After a long time I persuaded him to sell me our home. And now father, mother, the old home is yours again, here is the deed."

In his studio in the city Allen has a picture on the wall, a picture he refuses to sell for any sum of money. It is the picture of his mother and father as they looked when he gave them the deed to the old farm, and the light and happiness in their eyes somehow fills all beholders with a longing to do something good.

### "To Cure a Felon"

says Sam Kendall of Phillipsburg, Kan., "just cover it over with Bucklen's Arnica Salve and the salve will do the rest." Quickest cure for Burns, Boils, Sores, Scalds, Wounds, Piles, Eczema, Salt Rheum, Chapped Hands, Sore Feet and Sore Eyes. Only 25c at Woods & Orme's drug store. Guaranteed.

### Lost Both Legs While Learning the Road.

Fulton, Ky., March 24.—William Wall, an Illinois Central brakeman, who was learning the road, while attempting to board a passenger train here to-day, fell beneath the wheels receiving injuries that necessitated the amputation of both legs. He is in a critical condition.

### Has Stood the Test 25 Years.

The old, original Grove's Tasteless Chill Tonic. You know what you are taking. It is iron and quinine in a tasteless form. No cure, No pay. 50c.

### Growth of the K. P's

"The Knights of Pythias are growing more rapidly in membership than any other fraternal order in the United States," remarked former Representative Thomas G. Stewart, chancellor of the Kentucky State Lodge, at the Grand Hotel to a Cincinnati Enquirer reporter, "and now rank numerically next to the Masons, the Odd Fellows coming first. The Odd Fellows and Masons have over 1,000,000 members each and the Knights of Pythias entered the new year with over 700,000. Ohio is the banner Knights of Pythias state, with over 700,000 members, and Illinois shows up second. The order has increased in numbers more in Kentucky within the last two years than any other state and has at this time 12,000 on its rolls in the old commonwealth. If the Knights of Pythias continue their increase of membership in this decade as they did from 1890 to 1900 they will run ahead of either the Odd Fellows or Masons. They have had class meetings in Chicago and Kansas City, in which 1,000 members participated."

WANTED: by Chicago wholesale and mail order house, assistant manager (man or woman) for this county and adjoining territory. Salary \$20 and expenses paid weekly; expense money advanced. Work pleasant; position permanent. No investment or experience required. Spare time valuable. Write at once for particulars and enclose self-addressed envelope. SUPERINTENDENT, 132 Lake St., Chicago, Ill.

### WESTON

Mrs. L. R. Cain left March 23 for Coates, Mo. to visit her son, Charlie, whose wife is very low with consumption.

Messrs. J. Q. A. Ledbetter and T. J. Belt, of Elizabethtown, Ill., and Mr. Jennie Frayser, of Cave-in-Rock, were here Saturday to take the deposition of J. W. Gunter.

Rev. John Crag filled his pulpit here Saturday and Sunday.

Mrs. Jennie Tensel is on the sick list at this writing.

H. C. Frayser, of Cave-in-Rock, Ill., was the guest of G. P. Wilson Sunday and Monday.

Mrs. J. S. Heath who has been very sick is some better.

There is four new cases of mumps at J. W. Hughes'.

Dr. E. E. Newcom was in town Saturday evening.

Earl E. Rankins made a trip to Evansville last Wednesday on the Str. John S. Hopkins but she failed to get into port until 7:30 p. m. and he failed to see any of his old friends.

C. E. C. Travis was in Marion last Tuesday.

### A Guaranteed Cure For Piles

Itching, Blind, Bleeding, Producing Piles. Druggists are authorized to refund money if Pazo Ointment fails to cure in 6 to 14 days. 50c.

## M. AND F. ACADEMY

Providence, Kentucky

Enter our Normal on Monday, April 2nd, and remain until the first teachers' examination, and then contest for the gold medals.

Prof. W. B. Davis, a Hopkins county examiner says: "We find Prof. Brown's students as thoroughly prepared in every respect as those from any other school, academy or college."

### TERMS AS FOLLOWS:

Board per week \$2.50  
Tuition per week 75

J. Y. BROWN

Hot and cold baths at Metz & Sedberry's barber shop—open until midnight on Saturday—Everything neat and clean.

### PARKER'S HAIR BALM

Clears and beautifies the hair. Promotes a natural growth. Never fails to restore Gray Hair to its youthful color. Cures scalp diseases & hair falling out. Sold everywhere.

Have your teeth whitened and beautified by our method WHICH ABSOLUTELY PREVENTS DECAY.

All Work Guaranteed to be Strictly First Class.

**OFFICE AT Roney Hotel FIVE DAYS ONLY**

We will visit Tolu, Carrsville, Lola and Hampton on this trip

## CIRCUIT COURT IS STILL IN SESSION

Grand Jury Adjourned Saturday—Several Indictments Returned

WALTER WORTHAN GOES TO THE PEN

The March term of the Circuit Court is still in session. The grand jury adjourned Saturday evening.

The case of the Commonwealth against Walter Worthan, the negro charged with stealing chickens from the B. S. Lewis Produce Co., was called for trial Tuesday. The jury returning a verdict of guilty, fixing his punishment at one year in the penitentiary.

The Commonwealth vs. Fred Landon, continued.

Same vs. A. J. Clendenen, continued.

Same vs. Will Kirk, returned bond and \$200.

Same vs. Henry Hanks, returned bond from \$17.

Same vs. T. C. Ry, fined \$250 for failing to supply whiskey, crossing.

Same vs. Almon Bell, plead guilty, fined \$20.

Same vs. Chas. Davis, continued.

Same vs. Jack Robinson, continued.

Same vs. Tom Nelson, fined \$150.

Same vs. Henry and Billy Thomas, cleared.

Same vs. Fred Lemon, continued.

Same vs. Henry Daniel, continued.

Same vs. Jim Hogan, continued.

Same vs. Zeke Terry, continued.

Same vs. Abe Klyman, continued.

Same vs. Ed Martin, continued.

Same vs. Sullivan Machine Co., fined \$250.

Same vs. Chas. Belt, fined.

Markham Terry, admr. vs. W. H. Thomas, dismissed by agreement.

L. Castleberry vs. C. F. Jean Co. judgment \$50.

A. J. Baker vs. Stiles Guess, judgment by default.

Annie E. Rhodes vs. J. A. Graves, continued.

Annie E. Rhodes vs. S. H. Cassidy, continued.

W. A. Wheeler vs. E. M. Sams, land, judgment by default.

Commonwealth vs. Central Home Tel. Co., judgment \$60.

S. E. Under vs. I. C. Ry, continued.

M. C. Harbin vs. Columbia Mfg. Co., continued.

R. S. Heath vs. J. L. Rankin, dismissed.

G. H. Foster vs. J. C. Adams, judgment \$10.

Ragon Bros. vs. J. W. Goodloe, continued attached.

Dyonsburg Canning Co. vs. G. L. White, dismissed.

Hasting Industrial Co. vs. L. E. Travis, settled \$30.

A. J. Pickens vs. B. I. Wertz, judgment by default.

W. E. Bookley vs. T. J. W. Co. judgment by default.

Historical Industrial Co. vs. W. N. Hart, continued.

W. L. Boush vs. Dyonsburg Canning Co., settled.

C. S. Nason vs. G. H. Foster, judgment by default.

Same vs. J. M. Waggoner, settled.

Ray Butler vs. Adams & Pierce, settled.

J. A. Delmonico vs. Martin Zie, continued.

J. H. James vs. Ira Hughes, settled.

W. L. Doughty vs. B. M. George, judgment by default.

M. F. P. vs. Dyonsburg Canning Co., continued.

Charles Goodhart Co. vs. J. W. Ry, judgment by default.

Sullivan Machine Co. vs. Adams & Pierce, continued.

M. C. O'Hara vs. W. C. O'Hara, continued.

Ada Robinson vs. T. C. Ry, continued.

R. R. Pickering vs. Western Union Tel. Co., continued.

J. G. Bodester vs. R. A. Vason, continued.

A. J. Baker vs. R. L. Shaw, continued.

L. D. Travis vs. Wm. P. W. Co., continued.

W. S. Brechfield vs. Boyan Pattern Co., continued.

R. H. Kemp vs. W. S. Kemp, continued.

Chas. Kinsey vs. I. C. R. R. and S. N. J. Mitchell vs. H. H. Kinz, continued.

Mayer Bros. & Co. vs. T. H. McElroy, settled.

B. B. Rushing vs. National Iron Spar Co., settled.

Malissa Doyle vs. John Baglan, paid \$100, settled.

W. T. Mitchell vs. D. Hornback, settled, paid \$200.

**BLAMES TRAIN DISPATCHER**

For Wreck on the Rio Grande—Operator Makes Full Explanation.

(Louisville Times.)

Eugene Lively, a clerk in the I. & N. railroad freight office, and a brother of Frank S. Lively, whose name the telegraph key is said to have caused the wreck on the Denver & Rio Grande railroad, which cost thirty-five lives, gave out a statement this morning tending to exonerate his brother from any blame and throw some light on the system of operating the road.

Frank Lively has refused to make any statement concerning the wreck, except to members of his immediate family and they have refrained from repeating his statements until this morning.

Eugene Lively said: "My brother Frank was the day operator at Swallow, and went on duty at 7 o'clock a. m. He worked all day. The night

operator went off on a spree and when he saw he had to work part of the night he asked about 6 o'clock to be relieved for supper. The train dispatcher refused to let him go to supper, however, and all that time he worked without rest, or sleep and without eating since dinner.

Asked for relief.

"Three times that night he asked to be relieved, saying he was sleepy and each time the train dispatcher promised to relieve him. Finally, shortly after midnight he went to sleep, but his sleep was not as sound but that he knew of the passing of trains. He was awakened shortly after midnight by hearing the signal call of his station, which is familiar to an operator, as one's name is to other people. The dispatcher asked him if No. 3, the train that was wrecked, had passed. He had been sufficiently awake to know that the train had not passed and answered: 'No.' There was no further conversation over the wire for a time and he again went to sleep, sound asleep this time. He was again awakened by hearing his signal call.

"The dispatcher asked if No. 3 had passed. He answered that it had not as far as he knew, but that he had again been asleep. Copy orders for No. 3, directed the dispatcher.

Lively protested, saying he was not willing to copy orders for a train not being sure whether it had passed. The dispatcher refused to copy the order. He asked and a few minutes later a train came by and he handed the orders to the engineer and conductor. This order is for No. 3. Our records No. 15 and No. 16, twenty minutes about 10 o'clock.

Realized the danger.

Lively then realized the danger to which the passengers of No. 3 were subjected, and without a moment's hesitation called the dispatcher and told him that No. 3 had passed before he received the order.

While Frank Lively was thus speaking to the dispatcher, his brother, Tom Lively, night operator at Portland, one mile from the wreck, broke in on the key and told the dispatcher of the wreck. The details had not reached him that every operator then knew that a terrible disaster had befallen the train.

Dangerous safety system.

Eugene Lively said his brother has no objection of going back to his job, as he is a clerk and has no more to do with it. His information is that the system is not made out.

He blames in a large measure the system of operating trains on the road for the wreck. It is known as the safety system. Under it all trains are allowed to pass telegraph stations without stopping unless a special signal is given them to stop.

The Semaphore signal system, first used by W. J. Murphy, of the Queen and Crescent route, is in general operation on the eastern roads. Under that system all trains are required to stop at telegraph stations unless they are given signal to go by without stopping, and should the operator be asleep the train would be compelled to stop without passing him. The engineer would then wake the operator and would not proceed without a clearance card, which the operator would get over the wire from the train dispatcher and thus the dispatcher would learn that he had been asleep without paying the terrible cost of a wreck.

Eugene Lively said his brother has no objection of going back to his job, as he is a clerk and has no more to do with it. His information is that the system is not made out.

He blames in a large measure the system of operating trains on the road for the wreck. It is known as the safety system. Under it all trains are allowed to pass telegraph stations without stopping unless a special signal is given them to stop.

The Semaphore signal system, first used by W. J. Murphy, of the Queen and Crescent route, is in general operation on the eastern roads. Under that system all trains are required to stop at telegraph stations unless they are given signal to go by without stopping, and should the operator be asleep the train would be compelled to stop without passing him. The engineer would then wake the operator and would not proceed without a clearance card, which the operator would get over the wire from the train dispatcher and thus the dispatcher would learn that he had been asleep without paying the terrible cost of a wreck.

Dangerous safety system.

operator went off on a spree and when he saw he had to work part of the night he asked about 6 o'clock to be relieved for supper. The train dispatcher refused to let him go to supper, however, and all that time he worked without rest, or sleep and without eating since dinner.

Asked for relief.

"Three times that night he asked to be relieved, saying he was sleepy and each time the train dispatcher promised to relieve him. Finally, shortly after midnight he went to sleep, but his sleep was not as sound but that he knew of the passing of trains. He was awakened shortly after midnight by hearing the signal call of his station, which is familiar to an operator, as one's name is to other people. The dispatcher asked him if No. 3, the train that was wrecked, had passed. He had been sufficiently awake to know that the train had not passed and answered: 'No.' There was no further conversation over the wire for a time and he again went to sleep, sound asleep this time. He was again awakened by hearing his signal call.

"The dispatcher asked if No. 3 had passed. He answered that it had not as far as he knew, but that he had again been asleep. Copy orders for No. 3, directed the dispatcher.

Lively protested, saying he was not willing to copy orders for a train not being sure whether it had passed. The dispatcher refused to copy the order. He asked and a few minutes later a train came by and he handed the orders to the engineer and conductor. This order is for No. 3. Our records No. 15 and No. 16, twenty minutes about 10 o'clock.

Realized the danger.

Lively then realized the danger to which the passengers of No. 3 were subjected, and without a moment's hesitation called the dispatcher and told him that No. 3 had passed before he received the order.

While Frank Lively was thus speaking to the dispatcher, his brother, Tom Lively, night operator at Portland, one mile from the wreck, broke in on the key and told the dispatcher of the wreck. The details had not reached him that every operator then knew that a terrible disaster had befallen the train.

Dangerous safety system.

Eugene Lively said his brother has no objection of going back to his job, as he is a clerk and has no more to do with it. His information is that the system is not made out.

VOL. 27.

## RESCUED THE ALAMO.

**FAMOUS TEXAN STRONGHOLD  
SAVED FROM DESTRUCTION  
BY A WOMAN.**

**Miss Clara Driscoll Prevents Catastrophe Alamo Was the Scene of the Most Terrific Fight of Early Days of Texas.**

Through the command of a considerable sum of money a Texas woman has been enabled to save to her native state and to the United States one of the most noted relics of Texas and Mexican War times. The historical Alamo, an old fort, originally a monastery, and the scene of one of the most thrilling incidents of the Mexican War, was about to be sold, and the ground utilized in the erection of a modern hotel.

The lesson taught by the handful of Americans who held the Alamo rather than surrender, appealed so strongly to Miss Clara Driscoll, a successful author of magazine stories, that she made an offer of sixty thousand dollars for the property and it was accepted. In speaking of this purchase Miss Driscoll said that if the Alamo, a monument to the heroism of Texas soldiers, had been destroyed it would have made it impossible for her to live in the state, devoted as she is to it. Almost immediately after the historical fort came into her hands the people of Texas woke up to the situation. A bill was passed by the state legislature authorizing the purchase of the property from her and at the same time appointing her honorary custodian of the Alamo.

For some time Miss Driscoll has been writing short stories concerning Texas and Mexico life, her first book

of thirty. Already famous were the pioneer scouts and warriors who encountered themselves in that redoubt, and yet more, famous and glorious became their memory after the sanguinary and unequal fight. Men were they, heroes and intrepid characters, surrounded by a vast horde of savage Mexicans, with many an old score to settle, yet not one thought of surrender apparently entered their souls. The last of them was killed by Mexican bullets; but not until they had made a fearful accounting among the swarming hosts of the enemy. The tragic story of the Alamo will go down in history as one of the greatest of battles, and Texas and the Nation owe a lasting debt of gratitude to the woman who has saved its crumbling walls and towers.

### Will See Snakes.

Serpent skin, bow ties, bangles and necklaces are to be the fashion in the city this season, dealers having already received many orders for jewelry of a "snake" description.

One lady having made a bet in the form of a snake skin and at a recent New York fair one of the prizes were a contract to possess of jeweled snakes.

It is estimated that the new fashion will develop and that ladies will study the art of snake charming, despoiling their toy dogs for pet reptiles.

### Plan for Salvation of Louisville.

Some days ago the postmaster at Louisville, Kentucky, received a communication from a man in Rutland, Vermont, who had learned, he said, of the wickedness in Louisville, and coming to do his duty work there, wanted a list of the depraved men and women of that town. Postmaster Hale is it stated, forwarded a city di-

## OLD CLERKS REDUCED.

**BLOW ABOUT TO FALL UPON  
VETERAN MEN OF THE GOV-  
ERNMENT DEPARTMENTS.**

**Congress Preparing to Cut Salaries and Discharge Older Employees Who Have Spent Best Years of Life in Serving Uncle Sam.**

The blow, which the older government clerks at Washington have for sometime feared, is about to fall, and if the House of Representatives follows its apparent intention, the clerks of 65 years old and over, will have their pay cut from 25 to 50 percent.

The investigation carried on by the Appropriation Committee, shows that over \$2,000,000 is annually paid to clerks over 65 years of age, and that if the plan proposed is carried out, over 75 percent of these will be reduced. This will mean that many faithful employees of the government, who have grown old in the service of their country, will suddenly find their incomes cut nearly in half.

It is often stated that the average government job is an easy one, with short hours and good pay, so that there is something of a disinclination throughout the country to feel or express much sympathy for the government clerk who is reduced, or perchance, discharged for any reason. As a matter of fact, however, those post towns in Washington, are most trying and impracticable unless we except a few cases, in which the work is technical, with the possibility of leading to better things outside in the commercial world, and after a few years of service, leave the incumbent with out the capability of making his way in business. If suddenly thrown upon his own resources.

Most of the government bureaus are large offices, where a clerk may be engaged for years in a single line of work, his knowledge and experience, although narrow and circumscribed, thus becoming valuable to the government. In the meantime, his salary has been barely commensurate with his living expenses, and although some of the government employees with thirty years may have been able to buy a modest home, the proportion of these is not large.

Then, after twenty years of confining and uninteresting labor, comes his discharge, and he finds himself completely out of touch with all former business knowledge and relations, unable to earn as much in a new line of life as could his recently graduated son. This would mean that the man who has entered government service in middle life, and through meritorious effort and faithful endeavor has worked up to a salary of \$1,000 or \$1,500, would in his ripe years and experience, be thrown out on the world, like an old horse, who has served his master faithfully but has lost the vigorous step and stylish action of a younger animal. Had this man been connected with a big commercial house for those twenty years, his business associates would delight to honor him with the increased salary due to his experience and wisdom, which had done so much toward building up the structure of their worldly interests.

The sentiment has been freely expressed among the floor of the House, however, that it is not believed that a majority of its members will favor any drastic measure of cutting down the income of faithful clerks. One plan discussed by the House Committee, embraces a provision that when any employee shall have reached the age of 70 years, he shall be immediately discharged.

While \$1,000 might appear to be a reasonable living in the smaller towns, in Washington, where expenses are so heavy, it is a small sum for a man of family. Old and honored government employees, from the administration of Washington down, have resigned or died in the nation's service, but Congress in its wisdom, in these days of unbounded national prosperity, seems to be pursuing extraordinary methods to increase the efficiency of the service and to reduce the federal expenditures.

Among the subject, the Washington Post says: What a kind and beneficent government it would be that would cut a faithful servant, who had served it for years and who is as efficient a clerk now as he was ten years ago, because he has reached the age of sixty-five! What an inducement to faithful service! What a splendid example of the "merit system." But it probably serves a man right for reaching the age of sixty-five and being still vigorous and faithful and capable in the public service.

The Speaker of the House, the honorable Joseph G. Cannon, who will be seventy years old on the 7th of May next, should see to it that his friends on the Appropriation Committee take a back track on this Ocherish proposition. If the provision should not be stricken out in the House, the twenty-six Senators who are over sixty-five, and the three others who will be sixty-five before this year is out ought to be able to give it a quietus in the Senate.

Various are the reasons given for the placing of the two buttons on the back of a man's coat. One is that they are a survival of buttons which were used on the eighteenth century riding coat. The coat tails were thus buttoned up when the rider was on horseback.

### Tallest Skyscraper Yet.

It is announced that the Singer Manufacturing company has filed plans for a structure which will be higher than any existing New York city skyscraper

or by from 200 to 300 feet, and will be about 40 feet higher than the Washington monument. It is to be built at the north west corner of Broadway and Liberty street, with a tower of 40 stories, which will rise to the height of 591 feet. The tower will be 65 feet square for 26 stories, and will be surrounded by a dome containing four additional stories, above which will be a

### Restore Life After Death.

**Claim That Victims of Electric Chair Can Be Brought Back to Life.**

To enable to restore life after electrocution is the claim of J. M. Berger, an expert electrician, who states that by a method a person electrocuted at one of our prisons, and pronounced dead by the attending physicians, may be brought back to life. His only requirement is that he be allowed to take the body within fifteen minutes after the pronounced extinction and that the body be not baked or the lungs carbonized.

Mr. Berger states that he, himself, received more volts than are supposed to be necessary to kill a man and that he has seen cases where as high as 5,000 and 4,000 volts have gone through men's bodies and they have been restored to life and health. He cites as an illustration, the case of Joseph Averell, a Baltimore fireman, who was caught in an alternating current of 3,000 voltage and thrown from a pole to the middle of the street. He was removed at once to the city hospital and emergency treatment was given. Both of his hands were burned to a crisp and his skull was most fractured by the fall to the street, but he recovered.

Mr. Berger's method is very simple and one that he claims may be followed by any person who is cool-headed and not likely to become excited. He has the victim of electrocution on his back with a rolled coat or blanket under his shoulders so that the head is allowed to fall backwards. The operator should kneel behind the head of the patient, facing him, grasp the elbows and draw them well over the head, so as to bring them almost together above and hold them there for two or three seconds. He should then carry the elbows down to the sides and front of the chest, firmly compressing it by throwing his weight upon the elbows.

After two or three seconds, the arms should be carried above the head and the same maneuver should be repeated at the rate of fifteen or sixteen times a minute. The operators must remember that the manipulation must be conducted with methodical deliberation, just as described, and never hurriedly or halfheartedly. In addition to this, the tongue must be drawn out to free the throat. A cloth should be used in holding the tongue so it will not slip. It must be drawn out when the arms are held above the head and allowed to recede when the chest is compressed.

In the seventeenth century button holes were a matter of ornament more than of use. They were carefully cut, and "laid around" with gay colors, embroidered with silver and gold thread, bound with kid and velvet.

In the latter part of the eighteenth century breeches were worn skin tight. A gentleman ordering a pair is said to have told his tailor—"If I can get into them I won't pay for them."

The English, Irish and Scotch ship yards last year built a tonnage of new ships of 1,744,402 tons, or double the entire American tonnage.

## ON THE OKLAHAWA.

**MOST PICTURESQUE OF AMERICAN RIVERS—PALMS AND ORANGE GROVES.**

**Further Descriptions of a Delightful Trip From St. Augustine Through The Lake Region of Florida—Hanging Spanish Moss.**

A word more before I leave the beautiful city of St. Augustine in Sunny Florida, although the whole of our visit was not made as a matter of fact in sunshine. We went into the old Cathedral with its three bells all in a row, and one smaller bell hanging above, one of these being the oldest bell in the United States. We also visited three of the principal churches in the city—the pretty Episcopal, the unique Methodist, and the beautiful Presbyterian church, the last a memorial built by Mr. Flagler for his only daughter, Fort Marion, one of the sights of St. Augustine is an old Spanish fort, deserted, but kept in repair for visitors. We climbed the famous stairway to the ramparts where the view of bay, harbor, town and ocean is so fine I stood in the sentinel towers on the four corners of the Fort and almost imagined I could see the enemy approaching.

To me the quaint old streets of the town where most fascinating, there are no sidewalks, and one has to hug the walls in order not to be run over; second story verandas are not uncommon and one can easily shake hands with his neighbor on the opposite veranda or balcony. One of the very oldest houses is built of coquina; a natural shell conglomerate, and has a gambrel roof covered with moss, from which hangs a growth of bright green, ten inches high.

At night it is an interesting sight to saunter through these narrow picturesque streets, lined on each side with shops, where the curiously speckled and alligators stuffed in every size from the little ones, just coming out of their shells, to the great big fellows that made you shudder, they looked so life-like. Hundreds of pretty things in palm-tree, shells, etc. were also exhibited. All of this we saw in the rain and mist—some of the time under an umbrella, at other times too interested to remember that it rained.

### Deep Blue Skies.

On the last day when we spent in St. Augustine, the sun came out, the air was warm and balmy, the sky azure blue without a cloud, and I had my heart's desire of seeing St. Augustine bathed in winter sun shine. Carriages were being driven everywhere, sidewalks were crowded, the hotel courts and the plaza, and even the hotels themselves looked so beautiful I wished I might be a part of it all for a month. We sat in the Casino, watching the bathers in the large marble swimming pool, and listening to the music by the Marine Band. The scene was gay with flags and banners of all nations while the crowd kept coming and going like a kaleidoscope picture. After dinner we

the beach. I never saw such sand, so fine and white. An old sea captain from Nassau had just landed his schooner at the wharf so we paid him a visit, bought some pretty pieces of coral, and were treated to Cuban bananas and my husband to black cigars as well. The Captain had some superb tortoise shells. While he is on his trips, his young wife keeps a little shop and sells the treasures of the sea, with which he keeps her richly supplied.

**Good-Bye To Old St. Augustine.** The next morning, after four days visit, we had to say good-bye to this fascinating old city. It contains so much—the superb hotels with their wealth of beauty and luxuriant courts filled with tropical vegetation, the churches, the fort, the quaint old streets, the shops, the bay, the sea, the beautiful blue of sky and ocean, the sun-line—ah me, it makes a picture I shall never forget, a dream that has at last been realized.

The next morning we rode by train for an hour through the pine woods to Palatka, there boarding the little steamer Osceola—which was to take us 25 miles through the St. John's River and 101 miles up the Oklawaha—the Indian name for "Crooked Water." Such a funny little tub is the Osceola. It is about 50 feet long by 22 feet wide. Fortunately we had telegraphed for state rooms, as the boat was so crowded that many passengers had to hang on hooks. Our room was on the top deck, and so spacious that only one of us could get into it at a time.

### The Fascinating Oklawaha.

St. John's is quiet and monotonous, but the beauty of the Oklawaha is extremely fascinating—a narrow river without banks, constantly turning at right angles with itself, the great tall cypress trees full of waving gray moss, growing directly out of the water, which is of inky blackness. Now and then, but rarely, the river being very crooked, there is a short vista through these weird looking trees, with their branches reaching out toward Heaven, and the Spanish moss swaying gracefully back and forth in the breeze. The surface of the water was covered with lily pads, "hornets" the captain called them, but it was too early in the season for the lilies.

Now and then the steamer stopped at a lonely wharf to take on wood, and on the upper deck at dusk, pine torches were lighted which burned all night, faintly illuminating each side of the river, and creating most fantastic shapes and shadows. About 8 o'clock in the evening, we heard the whistle of the down boat, and the pilot moored us in a part of the river wide enough for her to pass. It was a beautiful sight as we watched her lights, while she twisted and curved her way toward us, passing within a few inches of the Osceola, the flame of her pine knots casting weird shadows about us and the dories on board singing as with cheers and hurrahs she slipped out of sight.

### Weird Southern Melodies.

As we glided on through this strange scene, our own darkies sang their

The Steamer Osceola Loading Some Oranges on the Oklawaha.

A Picturesque Larding Point on the Oklawaha Trip.

took the little ferry boat across the bay to Anastasi Island and then across to the Lighthouse and South Beach, where we sat on the sand watching the Atlantic waves as they rolled up on

weird melodies, and it hardly seemed as if we were living in this twentieth century. At one o'clock in the morning we passed through the narrowest part (Continued on next page.)

## THE NATION'S BRIDE.

**Latest Copyrighted Imperial Size Portraits of the President's Daughter, Mrs. Nicholas Longworth (nee Alice Roosevelt).**

**A Magnificent Souvenir of the Greatest of White House Weddings.**

Published by authority of Miss Roosevelt. These exclusive photographs have been reproduced in copper engravings and printed in sepia on special tinted paper, suitable for framing.

Arranged in large panels as shown in accompanying illustrations.

5 poses in Ball Dress, size 12 x 36 inches.

5 poses in Street Dress, size 12 x 34 inches.

Now selling in New York City for \$1.00 each. Our special offer (edition limited), Either panel 25c., or both panels 40c., postage prepaid.

Address **NATIONAL PHOTO-SOUVENIR CO.,**

Lock Box 61, WASHINGTON, D. C.
